Project Date: February 2017

Project Price: \$10,000 - \$49,999

Was recommended to us by a family member. It was the best decision we made. Doug and his team redid our kitchen and our children's playroom. The craftsmanship and quality of the cabinets so much better than we could have imagined. He worked with us on every detail so we got exactly what we wanted. He and his team were fantastic, not only during the install but quickly responded to us anytime we called to discuss the process. Would absolutely recommend to anyone looking for any. You will not be disappointed.

Relationship: Client

Project Date: August 2016

Project Price: \$50,000 - \$100,000

I first hired Doug in 2006 to build an entertainment center. 10 years later I was planning a major remodel of my house and called Doug to inquire about moving the unit he built. One thing led to another and Doug's company ended up completely redoing my kitchen, 3 bathrooms and several closets in conjunction with a contractor he recommended. Doug has a unique combination of skills which make him a fantastic resource. He went to art school so his eye for design is superb. He has extensive knowledge on all current trends including fabrics, granite, etc. He also has a great network of suppliers, vendors and subcontractors so you know that anything he touches is first class. He has an extensive manufacturing facility where he turns all of that into a masterpiece. And finally, his level of service after the project is finished is superb.

Project Date: May 2017

Project Price: \$10,000 - \$49,999

Doug is a true craftsman and design expert. His patience through the design process, ability to suggest meaningful and interesting alternatives, and understanding of our needs, made our decision to use Doug a very easy one. The build of our entertainment unit went smoothly and timely. The installation was done by a group of 4 highly skilled and caring members of The Cabinetshop. BTW....the finished unit was beyond our expectations! From someone who is a tough grader, Doug gets an A+++.

Relationship: Client

Project Date: May 2017

Project Price: \$50,000 - \$100,000

Being a general contractor, I have dealt with a number of custom cabinet makers throughout my career. I was introduced to Doug about a year ago and have contracted him now on numerous projects. He is, by far, the best of everyone I've known. It's very difficult to get someone who is capable of delivering a quality product in a reasonable period of time. If this is what you are looking for, hire Doug Ramsay.

Project Price: \$10,000 - \$49,999

I am an interior designer and kitchen/bath designer and have worked with Doug on several projects, most recently a kitchen in a home I am renovating. Once again Doug and his team have delivered a beautiful finished product!! There were some bumps along the road with this job because Doug was in the process of bringing a new installation team on board, but the end result is nothing short of spectacular. I have also recommended him to several neighbors and interior designers all who have been pleased with his work.

Project Date: September 2015

Project Price: \$10,000 - \$49,999

Doug Ramsay made a tremendous impact on the outcome of our home remodeling project. Doug built for us a full wall bar/wall unit, an armoire, and 3 bathroom cabinets. With his advice and that of his wife, Kelley, we are able to have cabinetry that is beautiful and well built. They were able to understand what we wanted and the look we wanted and then design, build and install cabinetry that is something we will enjoy for many years. He is extremely professional, knowledgeable and a pleasure to work with. He and Kelley both truly cared and that shows in their work. The workmanship is the best we have seen. Everything was done not only with professionalism but with an eye on finishing on schedule. His crew is also top quality. We will be using him again in the future and highly recommend he and his company.

Doug presents and acts like a true professional. He is caring, courteous and delivers on time. He designed, built & installed a den/office wall unit. We would recommend him without hesitation.

nkatzmd

Relationship: Client

Project Date: February 2008

Project Price: \$10,000 - \$49,999

Doug Ramsay designed and built my family room wall unit, wet bar cabinets, home office desk, book cases with undercabinets and dining room. Doug and Kellie were a pleasure to work with and delivered 100%. I recommended Doug to several friends and they were just as happy as I. In addition to his excellent workmanship and obvious passion, I found him to be ethically beyond reproach. Those rare qualities distinguishes him from many other contractors with whom I have dealt over many years in Florida.

sherylg58

Relationship: Client

Project Date: December 2014

Project Price: \$10,000 - \$49,999

Doug and his crew ,including his wife Kelly, were wonderful. Doug had great ideas and worked well incorporating my ideas into the kitchen design. I totally renovated my kitchen and master bathroom which were stuck in the 1990's. The quality of the cabinets is among the best I have seen. I not only had cabinets made, but also a table, window seat, and floating shelves. It all came together beautifully and I couldn't be more pleased. There was attention to detail and if there was an issue then it was problem solved and corrected to my satisfaction. They were very easy to work with and contact was never an issue. Phone calls, emails and texts were promptly answered. I have no problem recommending Doug and his company. They were awesome

vapicella

Project Date: March 2014

Project Price: \$10,000 - \$49,999

I am not the easiest client to please and Douglas Ramsay Custom Cabinetry did just that. We hired Doug and his team to completely remove our old kitchen and reinvent and install a new one. The result was nothing short of perfection. Doug was not only able to take the vision that I had in my head and construct it, but added to the project with his knowledge and expertise and exceeded our expectations. We could not have asked for better quality, craftsmanship, and professionalism. Thanks Doug!

Project Price: \$10,000 - \$49,999

Doug & his company have produced a dream-come-through of a library for us. From the design to the installation - it's been a very pleasant experience. The whole process had been nothing but professional, attentive, and personally supervised by Doug. Can't wait for the next collaboration (in the making).

Highly recommended!

Doug and his company produced the most beautiful wall unit for our home. He exceeded our expectations and delivered a masterpiece. A joy to look at, soft to the touch, perfectly executed, better than we envisioned. Doug is the finest cabinet maker in addition to being the most decent human being. Highly recommended and a pleasure to work with (this unit wasn't the only work he's done for us). Professional of the highest caliber. Thumbs up!

C Fornaro

Relationship: Client

Project Date: February 2012

Project Price: \$1,000 - \$9,999

As a designer of many high end residential projects, I have been fortunate to have met Doug and Kelly. If you have been searching for a custom cabinetry company that delivers honesty, superb quality and professionalism; your search is over. My first job with Douglas Ramsay Custom Cabinetry, a family-owned and operated for over 30 years, was last year on a project in Hunters Run Country Club in Boynton Beach, Florida. The end result exceeded my expectation, and basically ever since that, I was confident that I had found the right people I could confidently turn to, for all my high quality cabinetry and wood products needs.

Project Date: June 2002

Project Price: \$1,000 - \$9,999

When we moved into our new house in 2002, we hired Doug to plan and build a custom den and office unit. He presented us with a design which we approved. He built it and installed it and we are happily using it to this day. Several years later, Doug built a pantry in the kitchen replacing the horror the builder had given us. It matched perfectly with the rest of the kitchen cabinets.

Project Date: June 2012

Project Price: \$50,000 - \$100,000

Doug designed our kitchen using close to 100 cabinet doors. His unique approach to putting a solid glass panel behind the cook top and vent with see thru cabinets for the wine glasses made the kitchen an absolute knockout, very bright, and a wonderful place for us to cook in at all times.

If we ever were to build another home Doug would be the only person we would think of using.

Project Date: November 2014

Project Price: \$10,000 - \$49,999

Six years ago Doug Ramsey remodeled my kitchen. Because the room was small, the only stipulations I gave him where color,contemporary style, utilization of all available space, and to this day I love that room and would not change anything that Doug suggested.He was organized, timely, and informative.

Because of his easy manner, perfection in his work, and reliability, this year, I asked him to design and make a fourteen foot breakfront for my living room and a silver unit for my den. The materials he suggested where dynamic and his craftsmanship superb! I highly recommend Doug and his staff to all my friends.

I hired Doug Ramsay to make a wall unit for me. It was a big job as I have a lot of art glass that I wanted to display as well as a big screen T V. Doug did an excellent job. He was very professional and the wall unit is beautiful!!!!

melt25

Relationship: Client

Project Date: January 2008

Project Price: \$10,000 - \$49,999

We were introduced to Douglas Ramsey Custom Cabinetry (DRCC) through our decorator. We were building a home in West Palm Beach, Florida, and needed a wall unit which would be floor to ceiling, approximately twenty feet long and sixteen feet high.

We had done some research up front looking through various magazines, but needed someone's help to take our ideas and create a unit which would accomplish our goals.

Let's start with our goals. The unit had to be very distinctive, since it would occupy an area of our home where we knew company would congregate. It had to have a space to house at least a sixty two inch television set and if necessary be adaptable to accommodate a larger set in the future.

Our home was wired for a complete sound system with the major components hidden within the wall unit. Additional storage areas within the unit were necessary for items like throw pillows and serving pieces.

The most distinctive design of the unit had to display art pieces which our family had collected over our marriage and would continue to collect. Oh by the way we wanted these shelves designed in such a manner that these shelves were not just straight across, as someone might expect, but very modern. Different areas where light could be shown on perhaps one specific piece( which might be very tall) or another which might be a set of three items(which would be featured in a specific area). That was the challenge faced by DRCC. One last issue was that near the ceiling there were two windows that the wall unit had to be built around.

Let's talk about the design stage of the project. Doug Ramsey met with us, reviewed our pictures and took necessary measurements and came back with a rendering. If my recollection is correct, we probably had some discussions as to slight changes in design and then agreed to a price and delivery schedule.

By the way one of the unique designs DRCC came up with was the use of grass cloth wallpaper backing for the unit. That created an incredible look.

During construction we visited once or twice to see the unit and make any last minute changes if required.

Delivery was scheduled and there was never any surprises on the part of DRCC.

I was very careful to say surprises on their part since the unfortunate surprise was on ours . Installation was scheduled and the company wanted to make sure before final payment that we were happy with the final product. Prior to that time I had a heart procedure which delayed our arrival back in Florida for three months. Normally you might expect this would create large problems for a relatively small to mid sized business like DRCC. It was a large unit tying up space in their factory and at the same time tying up working capital. They insisted they would wait until I was well.

DRCC took it all in stride. The unit was delivered when I returned to West Palm Beach. Whenever we have needed any follow-up maintenance the company follows up immediately.

In fact recently our sound company needed some advice and DRCC offered to come down and help locate the necessary wires.

Up until now it seems my commentary in particular covered how impressed we were with Doug Ramsey. We would be remiss if we didn't specifically comment on how well his wife, Kelly, contributes to running the DRCC operations. As can be seen from our story, we were always kept well informed of our project's progress. Most importantly the company is ALWAYS responsive.

In summary DRCC offers a full service approach to custom cabinetry. Their professionalism is first class. Foremost to us was that Doug was creative, delivering a unit which eight years later whenever someone new comes into our home and sees the unit for the first time they always complement us on it.

Thank you for the opportunity to write this review!!

We have used Doug Ramsay Custom Cabinetry 3 times in the past four years. Doug is a true professional. He listens to you, the client, and then incorporates all of your thoughts with his design ideas into wonderfully hand-crafted cabinets. He had a very competitive price-point, uses the finest materials and keeps to accurate scheduling of installations. People still come into our home and comment on our beautiful kitchen. His workmanship makes our cabinets look like furniture. Our latest Doug Ramsay addition is a wall unit with a desk in our den. The room has been dramatically transformed into an office retreat for my husband. We highly recommend Doug to anyone who wants to have a first-class experience with home custom design and cabinetry.
